To Parents/Carers,

We wish to inform you of some changes to the Student fees and book packs for the 2021 school year.

The staff at Yarra Junction Primary School have taken a consultative approach to decisions involving learning resources and fees for the year ahead. Within this approach we have taken into consideration the impact COVID 19 has had on families financially and the specific learning/resource needs of our students.

With this in mind the following changes will be made to student fees and book packs:

- Voluntary contributions will be omitted from the expected school payments for the end of the school year and advertised at the commencement of the 2021 school year
- No items will be able to be altered for quantity on the book order
- At a parents request any un-used learning materials purchased for the 2020 school year will be returned to families. If no request made, items will be deemed as a donation to the school.
- Parent payment options will be available.

With kind regards,

Lisa Rankin (Principal)  
Rochelle Mansfield (Business Manager)
